Since 2009 we've been on a mission.

Quite simply, to create the best possible products for cats and dogs, whilst doing as little harm to the environment as possible.

We've come a long way, but there's lots more we want to achieve. With environmental pressures greater than ever and the prospect of more plastic in the ocean than fish by 2050, as humans and pet owners, we need to act now - before it's too late.

I'm immensely proud of what the team at Beco have achieved so far and we promise to continue making products as sustainably as possible, whilst having a lot of fun in the process. We believe that every dog and cat, little or large, can make a big difference.

George
Beco Founder, Tarka's dad.

Using business as a force for good.

We're proud to be part of the community committed to positive change. It's a journey of continuous improvement. Whilst searching for new and better ways to bring your dog joy, we measure, offset and reduce our carbon footprint. In support of social and environmental action, we donate 1% of every sale to projects making positive change.

POOP

Big, strong & reliable bags you can depend on.

60 Bags

120 Bags

Disposing of your pet's waste responsibly:

We all have a responsibility to clean up after our dogs. When choosing which poop bag to use, it comes down to how you dispose of your dog's waste. Available in scented or unscented, our recycled bags are a great option for those who dispose of their dog's poop in park bins or general waste. No bags break down in landfill so if that's where the bag is heading, it's best to choose recycled. Recycling gives waste plastic a second life and is 44% more energy efficient to manufacture than virgin plastic. If you dispose of your dog's waste in a well-managed, contained home compost system, making compost for non-edible plants, we recommend our home compostable bags.

48 Bags

Disposing of your pets waste responsibly:

We all have a responsibility to clean up after our dogs. When choosing which poop bag to use, it comes down to how you dispose of your dog's waste. Our compostable poop bags, made from cornstarch and PBAT, are best for those who dispose of their dog's waste in a well-managed, contained home compost system. Making compost for non-edible plants, not fruit or vegetables. They can be disposed of in normal waste but, like all compostable and biodegradable bags, they won't compost in landfill. If you dispose of your dog's poop in park bins or general waste, we offer post-consumer recycled poop bags, these come in scented and unscented options.

POOP BAGS

Natural Rubber Ball

A natural rubber ball that bounces and wobbles and has a hole for hiding treats to keep your dog entertained. Natural rubber takes the best from nature; it is tough, hard-wearing and springy enough for heavy chewers.

Key Points

- Made with natural rubber
- Vanilla scented
- Hole for treats
- Durable - Beco lifetime guarantee

Materials

- Natural rubber

Natural Rubber Bone

This tough chew toy is made from thick, springy natural rubber and is suited to heavy chewers. No toy is indestructible but this is as close as it gets.

Key Points

- Made with natural rubber
- Vanilla scented
- Hole for treats
- Durable - Beco lifetime guarantee

Materials

- Natural rubber

Natural Rubber Ball on Rope

A natural rubber ball on a strong but soft-to-touch recycled cotton rope. The natural rubber is super tough, and the rope makes it easy to throw; ideal for a game of fetch.

Key Points

- Made with natural rubber
- Vanilla scented
- Durable and long lasting
- Great for fetch

Materials

- Natural rubber
- Recycled cotton rope

Natural Rubber Hoop on Rope

A natural rubber hoop on a strong but soft-to-touch recycled cotton rope. The springy natural rubber is soft on dog's teeth and the knotted rope makes it a great toy for tug-a-war or fetch.

Key Points

- Made with natural rubber
- Vanilla scented
- Durable and long lasting
- Great for tug-a-war

Materials

- Natural rubber
- Recycled cotton rope
